

### The Vexed Questions Between England and Ourselves.

The following letter from "Ion," the generally well informed Washington correspondent of the Baltimore Sun, is especially interesting at this time:

"In the discussions of the Central American question by Mr. Buchanan and Lord Cardigan, the most friendly intentions were professed, and, probably, entertained, on both sides. But our position is a very awkward one, as the matter now stands. Our extreme demands were positively rejected, and it remains for us to present new terms of arrangement. This cannot be done without a mortifying back-out on the part of our Government. It is not all probable that the present Administration will abandon or modify their interpretation of the Clayton-Bulwer treaty, and it is well known that they have positively, and from the beginning to the end of the negotiation, refused to accept the British interpretation. Still it may be hoped that the British government will adhere to the treaty, according to their understanding of it, which will prevent them from exercising any actual jurisdiction in Central America in virtue of any protectorate, and from taking possession of Greytown—an act which would practically terminate the treaty and prevent future negotiation on the subject.

"At the commencement of the negotiations, two years ago, Mr. Buchanan, it is said, was instructed to represent that the present Administration disapproved of the whole treaty, and the policy of joint national action on which it was founded, and that it was the act of a prior Administration holding different views; but that still they would adhere to it and carry it out, upon the condition that the British government would adopt our interpretation of it, and at once abandon their claims to the Bay Islands and relinquish the Monroe protectorate. This was no chance for a renewal of the negotiation while the present Administration is in power, nor while Lord Palmerston (whose peculiar hobby is this very subject of British pretensions in Central America) remains at the head of the British government. Under these circumstances, the chief burden of the forthcoming President's message will probably be the Monroe doctrine and the means of its practical execution.

"It is believed that Commodore Paulding's instructions are of a character that will produce a collision between his force and that of Admiral Panfili, in case the latter should take possession of Greytown."

**IRON BUSINESS AT CHICAGO.**—A company has been formed with a capital of \$500,000, at Chicago, under the name of the Lake Superior Mining and Manufacturing Company, for the purpose of working iron mines, recently secured in behalf of the Company, on the shore of Lake Superior. The ore of these mines is said to be perfectly exhausted for a half a dozen generations, and the quality of it is so good, that it has been hammered out into wrought iron without smelting.

**KNOW-NOTHING MOVEMENTS.**—The Washington correspondent of the New York Herald says there are now in that city "quite a number of leading Know-Nothings, among whom is Albert Pike, of Arkansas, and Clark of New York; and there is a scheme on foot, which is not now fully developed, that will startle the uninitiated in political gambling."

**IT CANNOT BE DENIED**, that the celebrated and popular medicine of Dr. S. A. Weaver, far surpasses all other remedies for humors and chronic complaints. All over the country people are advertising this fact. If they are truly as good as they are said to be, there is no reason to doubt that they are truly a blessing to suffering humanity. Nov. 15th 2w.

**A REMEDY.**—We do not refer to a reprieve from capital punishment. There is a slow torture from which a respite is especially desirable. We refer to dyspepsia—a word in which all the horrors of indigestion are summed up. To the sufferers by this painful and harassing disease, we can hold out not only bright hopes, but the certainty of immediate relief and permanent cure. There is a tonic, cordial, and pleasurable principle in Dr. Hoffman's German Bitters, which invigorates the system and changes the morbid action of the stomach and the secretory organs, removes the disease, and restores to health. Prepared by Dr. C. M. Jackson, Philadelphia. See advertisement.—November 15th—2w.

### DIED

Near Eaton, on the 19th inst., Mr. ROBERT A. BLOOMFIELD, aged about 25 years. The deceased was a young man respected and esteemed by all who knew him. He leaves a widow and an infant daughter, and a large circle of friends to mourn their loss.

In Eaton, on the 19th, after a painful illness of some months, Mr. JOHN MERRILL, aged about 22 years.

The deceased was well known and highly esteemed in this community as a citizen and a business man. He leaves a wife and one child, a large circle of relatives and sympathizing friends to mourn his early departure.

In Eaton on the 19th Miss HELEN HICK, in the 16th year of her age. About four weeks ago the deceased was attacked with remittent fever, which, as it sometimes does, run into typhoid, and notwithstanding the attention of the local physicians, she was unable to rally in the morning of the 19th from amongst her friends. Other we can truly say:

"None knew her but to love,"

"None named her but to praise."

At the residence of her son-in-law, John Leedy, near Lago, Indiana, on the 30th of October, 1855, Mrs. MARY FAY, in the 74th year of her age.

The deceased emigrated from North Carolina in 1805 with her husband, Daniel Fay, and settled near Eaton, Preble county, Ohio. In 1822 she was left a widow with seven children, most of them small, to take care of, which duty she performed with untiring industry and perseverance. She was for many years a consistent and devoted member of the Christian Church.

### CINCINNATI AND EATON MARKET.
